## Profile

Experienced BEng Software Engineering student proficient in C#, Python, and Java. Fluent in both Spanish and English. Eager to contribute my skills and adaptability to diverse software development projects, ranging from frontend development, backend and mobile apps.

## Education

### BEng (Hons) Software Engineering

2020–2024

Edinburgh Napier University, Edinburgh, UK

- Studying dynamic Software Engineering program, with emphasis in cutting-edge development practices, with a strong focus on the industry. **Current average: 84% (first-class)**
- **Skills Acquired:** Developed practical experience in object-oriented programming, project management, and secure software development. Gained proficiency in C# programming, software design, algorithms and data structures.
- Equipped with the ability to design and develop large-scale software systems, make informed choices about methodologies, and adapt to evolving technologies.

### Additional coursework

*The Web Developer Bootcamp (Colt Steele - Udemy)*

### Technical College

2018–2020

Colegio Tajamar, Madrid, Spain

Computer Science, Physics and Mathematics. Graduated with 9.4/10

## Work Experience

### QA Engineer (Part-Time)

Sep 2023–Present

Infographics UK Ltd, Edinburgh, UK

- Conduct Coded UI Testing and unit testing for software products.
- Collaborate with the development team to identify and fix defects.

### Software Engineer Intern

Jun 2022–Sep 2023

Infographics UK Ltd, Edinburgh, UK

- Development-related tasks with C# and assisting with testing and support within the quality management team.
- Learned Scrum processes and MS DevOps systems.

### Student Ambassador

Sep 2020–May 2022

Edinburgh Napier University, Edinburgh, UK

- Communicated effectively with students from different backgrounds & assisted staff with administrative tasks

## Technical Skills

**Backend Skills:** C, C#, Python3, Java, JavaScript, TypeScript, Knowledge of Design Patterns, NodeJS, ExpressJS, MongoDB, REST, SQL, NoSQL databases, Deployment

**Frontend Skills:** HTML5, CSS3, Flexbox, JavaScript (ES6, ES2018), AJAX, Bootstrap, ReactJS

**Android Development:** Android Studio, Java, Kotlin

**Additional Technical Skills:** Authentication, Cookies & Sessions, Web Security, Developer Best Practices, Image Upload and Storage, Git & GitHub, Docker, MySQL, Linux Kernel, Data Structures, and Object-Oriented Design

## Projects

Varying from a mobile app, Windows application, and console-based projects. Also, developed web applications using technologies like ReactJS, NodeJS, and MongoDB. Available on my GitHub.
